

Ruby - Bug #4882

Delegator#methods should accept the singleton flag argument

06/14/2011 08:13 AM - julik (Julik Tarkhanov)

Status:	Closed	Backport:
Priority:	Normal	
Assignee:	matz (Yukihiro Matsumoto)	
Target version:		
ruby -v:	ruby 1.9.2p180 (2011-02-18 revision 30909) [i386-darwin9.8.0]	
Description		
In the new version of delegate.rb		
def methods		
...		
end		
does not accept the "also_declared_on_class" argument, which causes failures for libraries that call Object#methods with an argument and therefore exercise this functionality.		
On a sidenote, Object#methods somehow is not documented for 1.9 - but maybe I looked in the wrong place?		
This is probaby relevant for rubyspec as well so I've filed it under https://github.com/rubyspec/rubyspec/pull/55		
If the idea is to remove Object#methods or Object#methods with arity of 1 only it would be good to drop it on Object as well so that explosions are louder and the relevant calling code is fixed asap.
