Profile

- Accomplished Frontend UI developer with over 12 years of experience across multiple industries, including Health Care, Telecommunications, Fashion, and Travel.
- Profound understanding of designing, developing, and maintaining reusable UI components, leveraging advanced technologies and best practices.
- Proven ability to translate complex and abstract concepts into stable and innovative web applications, delivering superior user experiences.
- Exceptional leadership and team-management skills, fostering motivation and driving high performance in cross-functional teams.
- Well-versed in Agile methodologies and ceremonies, enabling efficient project execution and seamless collaboration.
- Passionate about mentoring aspiring developers in Frontend technologies, providing guidance and support on a dedicated Discord server.
- Successful track record in assisting individuals from non-IT backgrounds to secure Frontend developer positions through comprehensive coaching and career guidance.
- Demonstrated expertise in architecting highly scalable mono repo systems, ensuring efficient and robust applications.
- Experience in developing innovative eCOA products prioritising patient well-being. Also, developed digital showroom platforms with integrated catalogs and video conferencing capabilities.
- Strong expertise in redesigning legacy applications, particularly in the areas of Care Management and Health Care claim processing, and contributing to the development of efficient order management systems for telecommunication clients.

Education

B.E. Computer Engineering

North Maharashtra University (2013)

Personal Dossier

Date of Birth: September 02

Current City: Amsterdam, Netherlands

Marital Status: Married

Nationality: Indian

Experience

SENIOR FRONTEND ENGINEER

IQVIA, Amsterdam, NL

May 2023 - present

Tech: Typescript, React, Redux

Role: As an eCOA Specialist at IQVIA, I am responsible for supporting the design, configuration, and execution of clinical studies using the eCOA platform. I develop the Sculptor tool to build customisable electronic diaries tailored to study protocols and implement real-time updates across all participant devices. My role emphasises enhancing patient compliance through user-friendly digital interfaces and maintaining data accuracy and integrity for clinical and real-world studies supporting clinical research.

FRONTEND ENGINEER

PVH's Stitch (Hatch Studio), Amsterdam, NL

Aug 2021 - April 2023

Tech: Typescript, React, GraphQL, Storybook, Styled Components

Role: Worked on creating a platform that brings teams together and their collections to life. The digital showroom also integrates catalogs within the DS. This platform also provides video conferencing which helps sales appointments smoother.

FRONTEND SOFTWARE ENGINEER

Travix - Trip.com, Amsterdam, NL

Dec 2019 - Jul 2021

Tech: Typescript, React, Redux, Storybook, Styled Components

Role: Developed user journey for x-Sell and up-sell products for 5 major brands of Travix. Collaborated and integrated Travix services with various 3rd party vendors for a smooth travel experience for the users across 40 countries.

UI ENGINEER

Evolent Health, Pune, IN

Oct 2018 - Nov 2019

Tech: React, Redux, JavaScript, Angular, CSS3, HTML5

Role: Redesigned and developed legacy applications into ReactJS from AngularJS around Care Management and Health Care claim processing.

SOLUTION INTEGRATOR

Ericsson, Pune, IN

Feb 2016 - Oct 2018

Tech: JavaScript, AngularJS 1.x, jQuery, CSS3, HTML5

Role: Working on Ericsson Order Care and Catalog Management Product. Primary responsibilities include developing UI features for the order management system.

SUBJECT MATTER EXPERT

Amdocs, Pune, IN

Sep 2013 - Jan 2016

Tech: JavaScript, jQuery, CSS3, HTML5

Role: Worked on the Amdocs OMS for telecommunication clients which simplifies and automates the ordering flow. Developed Dealer Self Service web application for Telcos giants like T-Mobile, Lux GSM, etc.

Open Source Projects

Discord Server NextGenDev for Mentoring Students

We are a community of like-minded learners from IT and non-IT backgrounds. I along with my friends help & mentor students.

Live Link: <https://discord.gg/RhuHW8CT>

React WhatsApp Clone

Users can log in with Google and chat with people. Users can also create groups to chat with people. This app also has a dark and light theme.
