

# Faster email & page creation. Better campaign outcomes.

Speed up your email production with Beefree's user-friendly drag-and-drop editor.

Effortlessly export emails to any sending platform with just a few clicks.

## How it works

**01. Get inspired and unleash your creativity** with access to the world's largest collection of 1,500+ free high-quality templates or start from scratch to create your own.

**02. Setup your brand and manage designs all in one place** keeping your design on-brand and organized with folders and brand style guidelines for remote teams, departments, and clients.

**03. Design emails with ease** using reusable content blocks and the ability to effortlessly transform emails into landing pages, allowing you to go from idea to ready-to-send email campaigns in minutes.

**04. Effortlessly collaborate across departments, teams, and with clients** through streamlined collaboration with real-time commenting, editing, and an easy approval process.

**05. Integrate with your favorite ESPs and marketing platforms**, such as HubSpot, Mailchimp, Salesforce, Klavio, and many others, or easily export HTML code in one click.
