5 HOT features you'll love

Site Explorer

1. Track the impact of your content changes

Spot whenever a content change is responsible for organic traffic dips and spikes via the:

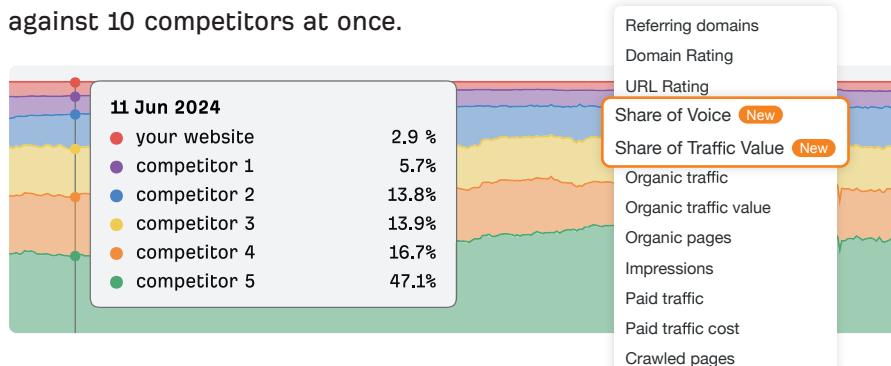

- ✓ Overview chart
- ✓ Page Inspect tool
- ✓ Top pages report
- ✓ Toolbar

Site Explorer / Overview

2. Check your brand's organic visibility

Get the full SEO picture. Use the Share of Voice (SOV) chart to compare your website's visibility in search against 10 competitors at once.

Site Explorer / Linking Authors

3. Find linking authors

Discover journalists and authors who link to your target along with their website. Targeted outreach has never been easier!

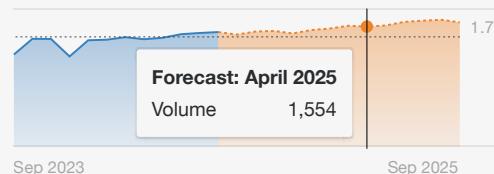

Keywords Explorer / Overview

4. Get search volume trends

Pick keywords with the highest potential using past, present and future search volume estimates.

1.4K

Mobile 1.1K 78% • Desktop 308 22%

Site Audit

5. Index pages faster

Submit pages from Site Audit to IndexNow — an Internet protocol that pings partnering search engines when content changes have been made.

Upcoming features soon

Reports (Beta)

Create custom reports to keep your team and clients updated on your SEO success.

Patches

Fix simple issues on your website with one click, right in Site Audit. No developers needed.
