Collaborate from Roadmap to Retro

Product, Design, and Engineering teams accomplish more together, with Mural.

Cross-functional teamwork improves with Mural to increase engagement in meetings, drive alignment and decision making even when working asynchronously, and foster high-impact creativity and problem-solving skills.

“In previous in-person PI events, some team members participated remotely, which presented challenges in keeping everyone engaged equally. Using Mural as a facilitation tool kept all participants engaged and allowed everyone in the breakout session to contribute effectively.”

Christine Steinwedel
Scrum Master

increase in Booz Allen's delivery rate following its first virtual PI planning session with Mural

Design your next session in Mural in minutes

Choose from hundreds of templates to help you jumpstart your next collaborative session or start here with the top templates for Product, Design, and Engineering.

Features & Integrations

Shapes and Connectors

Create workflows and journey maps with multiple shapes and connectors to help you outline and visualize workstreams and designs.

Voting

Quickly get an understanding of everyone's thoughts with a voting session to make fast and inclusive decisions.

Comments

Keep lines of communication open in asynchronous work by communicating through comments.

Content Library

Save time by quickly accessing your favorite and most used designs and frameworks by retrieving them from your content library.

Slack Integration

Receive Slack notifications of new comments and developments that take place in your murals to stay on top of your projects.

Azure DevOps Integration

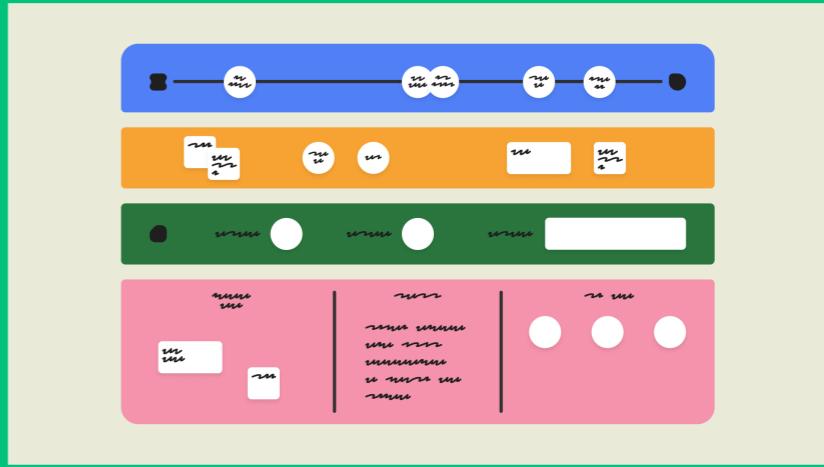

Power Agile workflows by importing work items as sticky notes or creating new work items in Azure DevOps from sticky notes.

Confluence Integration

Create and maintain visibility across teams by documenting project developments and embedding murals into Confluence pages.

Strategy & planning

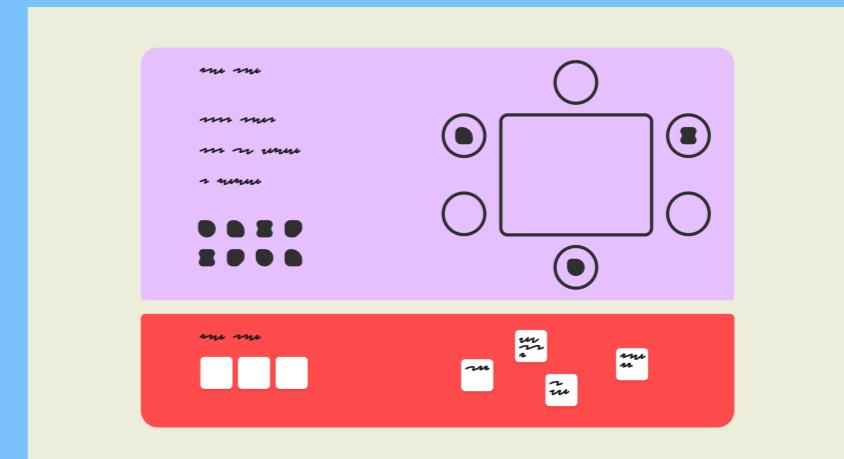

Create a plan and outline steps to align with your teams on how to progress forward to reach your goals.
