SUPPLEMENTARY INFORMATION:

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures.

OMB Control Number: 0651–0024.

Needs and Uses: Patent applications that contain nucleotide and/or amino acid sequence disclosures falling within the definitions of 37 CFR 1.831 (for applications filed on or after July 1, 2022) or 37 CFR 1.821(a) (for applications filed on or before June 30, 2022) must include, as a separate part of the application disclosure, a copy of the sequence listing in accordance with the requirements in 37 CFR 1.831–1.835 or 37 CFR 1.821–1.825, respectively. Applicants may submit sequence listings for both U.S. and international patent applications. For more information concerning the submission of sequence listings in international applications, see the Patent Cooperation Treaty (PCT) Rules 5.2 and 13ter, Annex C of the PCT Administrative Instructions, and section 1848 of the Manual of Patent Examining Procedure (MPEP) (9th ed., Rev. 01.2024, November 2024).

The USPTO uses the sequence listings during the examination process to

determine the patentability of the invention claimed in the application. The USPTO also uses the sequence listings for pre-grant publication of applications and issued patents. Applicants use sequence listings when preparing both national and international patent applications that disclose nucleotide and/or amino acid sequences to provide a written description of the invention and to distinguish the claimed subject matter from the prior art.

This information covers only the submission of sequence listing information itself. Information pertaining to the initial filing of a U.S. patent application is collected under OMB Control Number 0651–0032, and information pertaining to the initial filing of international applications is collected under OMB Control Number 0651–0021.

For sequence listings filed as 37 CFR 1.825 amendments in applications having a filing date of on or before June 30, 2022, this information collection also accounts for the submission of a new or substitute computer readable form (CRF) copy of the sequence listing under 37 CFR 1.821(e) and 1.824, with the amendment incorporated therein, if necessary, under 37 CFR 1.825(a)(5)(ii) or (b)(6)(ii).

Forms: None.

Type of Review: Extension and revision of a currently approved information collection.

Affected Public: Public sector.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On occasion.

Estimated Number of Annual Respondents: 30,000 respondents.
