Refresh Your Life

A woman with long red hair is smiling and holding a small, fluffy white dog. In the foreground, a golden retriever is lying on a grey rug, looking towards the camera. A robotic vacuum is on the wooden floor. In the background, there is a brown leather sofa, a potted plant, and a cat tree with a grey cat sitting on it.

2010

First Intelligent Robot

Launched its first intelligent robot vacuum project in Shenzhen, China.

2012

Infrared Eye Detection

Pioneered the integration of infrared eye detection system into robot cleaning.

2014

BLDC Fan Motor

Brought in BLDC fan motor to the sector.

2016

Best Seller Winner

Best seller on amazon.com

2021

Reddot Award Winner

Laser navigation robot vacuum, ILIFE's first Red Dot Award winning product is launched.

2024

Discover More

Introducing a Value-Packed Range of Robot Vacuums with Self-Emptying Stations.

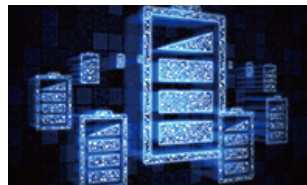

2011

R&D Center

Expanded its R&D team by establishing another R&D center opened in HongKong.

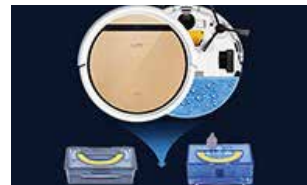

2013

Lithium ion Battery

Issued lithium ion battery to be the industry standard.

2015

2-in-1 Technology

Developed integrated vacuuming & mopping robot, and introduced it to the chinese market.

2018

First Washing Robot

Released the first flooring washing robot category to the world.

2023

X1000 New Release

Introducing the world's first 20,000Pa AI robot vacuum for commercial & large home space.

2025

Flagship Launch

Experience the Power of AI with the All-in-One Smart Station and Multi-Function Vacuum Robot.

What Media Say >>

"We've been pleasantly surprised by the Shinebot's performance in our tests, and despite our reluctance to being banned from the bleach we think it actually did a better job than a hand mop."

— techadvisor

"...it seems like an attractive consideration for anyone looking for a deal on this line of devices."

— Tom's Guide

"The mopping capability is a nice extra that many competitors don't have."

— TopTenReviews

"The ILIFE Shinebot W400 floor washing robot must be the best piece of tech I have ever reviewed -- primarily because I hate washing floors."

— ZDnet

"Watching the iLife W400 Floor Washing Robot furiously scrubbing away at our floors was certainly enjoyable."

— Techradar

"The W400 has better cleaning performance than any alternative on the market."

— Digital Trends

AI Robot Vacuum Cleaner with
Self-Sufficient Smart Station

Key Features:

- AI Obstacle Avoidance Module
- AI Night Vision Lighting
- Extendable and Liftable Mop
- Precision Mopping System
- 3L Large Capacity Dust Bag
- Up to 200mins of runtime
- Robot: 7000Pa Suction Power
- Station: 17,000 Pa Suction Power

AI-Smart Home Automation

Whole-house scene perception accurately identifies objects and learns user cleaning habits and routines.

Smart Hand-Wiping Mop

Precisely and flexibly detects edges, adjusting to clean hard-to-reach areas.

T20s

Smart Laser Navigation
with Self-emptying Station

Key Features:

- Precise LDS Navigation
- Self-Emptying Station
- 2-in-1 Vacuum and Mop
- Up to 260mins Runtime
- Up to 5000Pa Suction
- Easy-to-use APP Control
- Support Voice Assistance
- 3.5L Large-capacity Dust Bag

Precise Laser Navigation and Mapping

With 360° and 4k/s scanning, T20s gets 2 times faster mapping for higher coverage to create the most efficient cleaning route without missing spots.

Enjoy 70 Days of Effortless

Enjoy effortless cleaning with our advanced technology. The self-empty station, equipped with dust-collection and a disposable dust bag, frees up your hands for effortless cleaning.

Auto Boost for Carpets

After detecting the carpet, the suction power will automatically increase and can be customized according to personal preferences.

5000Pa Strong Suction Power

Leave floors and dust crannies spotless with over 90% straight-line dust removal rate. Ensure every corner is covered, taking your cleaning experience to new heights!

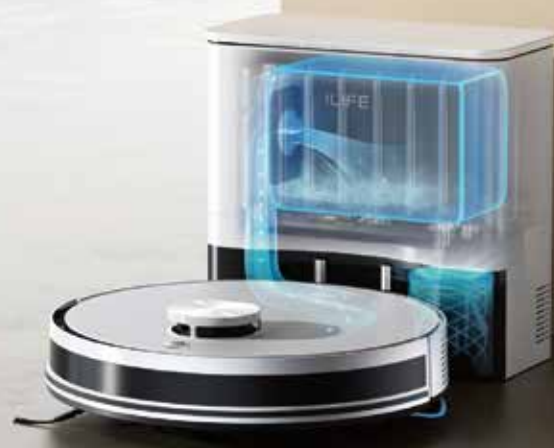

Vacuum and Mop Combo

Experience comprehensive cleaning with our 2-in-1 vacuum and mop combo, adept at removing dust and stains. Multiple modes cater to your daily cleaning needs.

A30 Pro

Laser Navigation Robot Vacuum
with Self-Emptying Station

Key Features:

- LiDAR Navigation System
- Self-Emptying Station
- 2.5L Dust Bag Design
- Up to 5000Pa Suction
- 2-in-1 Vacuum and Mop
- 2-in-1 Roller Brush
- Up to 180mins of Runtime
- Easy-to-use ILIFEHOME APP

Navigate Your Home with Precision

The LiDAR navigation system ensures thorough cleaning of corners and edges with minimal effort.

One Clean, Twice the Cleanliness

2-in-1 dustbin and water tank combine vacuuming and mopping in one, making cleaning more convenient and time-saving.

5000Pa Strong Suction Power

Effortlessly captures debris and dust with 5000Pa of powerful suction, ensuring a deep clean for your home.

Say Goodbye to Dirty Work

The self-empty station with a powerful 12,000Pa cyclone dust collection, automatically clears the robot's dustbin. With a spacious 2.5L dust bag, enjoy up to 7 weeks without emptying, minimizing the hassle of frequent cleaning.

Up to 180 Minutes of Runtime

Powered by a high-capacity lithium battery, it runs over 180 minutes in silent mode, covering 120 m²—ideal for most homes.

A12 Pro

Laser Navigation Robot Vacuum
with Self-Emptying Station

Key Features:

- LiDAR Navigation System
- Self-Emptying Station
- 2.5L Dust Bag Design
- 2-in-1 Vacuum and Mop
- Up to 3000Pa Suction
- Anti-Tangle Suction
- Up to 140mins of Runtime
- Easy-to-use ILIFEHOME APP

Precise Laser Navigation and Mapping

LDS quickly and precisely maps your home, scanning the environment to build a layout with real-time positioning, ensures high-coverage, efficient cleaning, making your home cleaner and more comfortable for your pets.

The Self-empty Station

The self-empty station with a powerful 13,000Pa cyclone for all debris and hair collection, it automatically empties the robot's dustbin, ensuring hassle-free cleaning.

3000Pa Powerful Suction

Easily picks up leftover pet food, debris, dust, and hair, tackling stubborn dirt for a deep clean of your home.

Smarter APP Control

ILIFEHOME APP gives you full access to robot's functions anytime, anywhere.

V20

**Solid-Fixed Laser Navigation
Robotic Vacuum Cleaner**

Key Features:

- SoF LiDAR Smart Navigation
- 5000Pa Powerful Suction
- Slim & Compact Body
- 2-in-1 Vacuum and Mop
- Up to 140mins of Runtime
- Easy-to-use APP Control
- Real-Time Voice Notifications
- Advanced Multi-Sensor System

SoF LiDAR Smart Navigation

The LiDAR emits point and line lasers through the front window to create precise maps and detect obstacles with high accuracy. During scanning, the robot rotates 360 degrees to complete the process.

Ultra-Slim Design

The LiDAR is embedded within the robot, resulting in a thinner, more compact form that easily navigates under different furniture and into tight spaces.

Advanced Multi-Sensor System

Equipped with 38 high-precision sensors to avoid obstacles and prevent drops, ensuring both furniture protection and efficient cleaning.

5000Pa of Superior Suction Power

Effectively removes fine dust to debris on various surfaces, including composite floors, tiles, and carpets. The ally against the most persistent dirt and debris.

2-in-1 Vacuum and Mop

The 2-in-1 vacuum and mop combo effectively picks up dust and tackles stubborn stains, ensuring a comprehensive clean. Choose from various modes to handle your daily cleaning tasks with ease.

V9 Pro

Gyro Navigation Robot Vacuum
with Self-Emptying Station

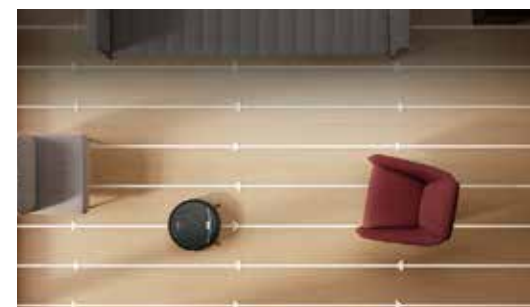

Key Features:

- Gyroscope Navigation
- Self-Emptying Station
- 2.5L Dust Bag Design
- Up to 3000Pa Suction
- 2-in-1 Vacuum and Mop
- Up to 100 Mins of Runtime
- Easy-to-use APP Control
- Support Voice Assistance

Self-Emptying Station

The self-empty station features a powerful 12,000Pa cyclone dust collection system and a spacious 2.5L dust bag, allowing up to 7 weeks without emptying and reducing the hassle of frequent maintenance.

Plan your Path, Clean with Purpose

Intelligently mapped cleaning paths ensure efficient coverage of every nook and cranny, leaving no corner untouched.

Unleash the Power of 3000Pa

3000Pa suction power for deep, thorough cleaning, tackling even the toughest dirt with ease.

Vacuum and Mop in One

2-in-1 dustbin and water tank, efficient cleaning, less hassle. Adjust water volume for different floor types.

Support Voice Assistance

Compatible with Alexa and Google Home Assistants, easily control with simple voice commands.

V10

Large Dustbin Robot Vacuum

500ml Extra-Large Dustbin

Designed with a high-capacity dustbin to handle daily cleaning with ease—empty just twice a week, saving you time and effort!

5,000Pa Hurricane-Level Suction Power

Instantly removes fine dust and debris, reaches deep into crevices to eliminate stubborn dirt, and powerfully lifts embedded pet hair from carpets.

Gyroscope Smart Path Planning

Equipped with an intelligent gyroscope navigation system that maps out efficient zigzag cleaning routes—boosting cleaning efficiency by 70% for smarter, easier cleaning!

Smart App Control

Schedule cleanings, adjust suction power, and monitor progress anytime, anywhere — full control of your home, right at your fingertips!

V2

Ultra-Slim Robot Vacuum

Robotic Vacuum Cleaner

Anti-Tangle Suction Nozzle

Powered by a high-speed motor, it delivers strong suction through a tangle-free nozzle that easily picks up dirt, dust, hair, and fur without tangling.

76mm Ultra-Slim Design

At only 76mm thick, it effortlessly slides under low furniture, reaching more cleaning areas.

Up to 120mins Runtime

Equipped with a high-capacity lithium battery for long-lasting performance, ideal for large areas.

One-Touch Start

Simple operation — cleaning made easy with just one press.

Key Features:

- Vacuum, mop & wash 3-in-1 efficient cleaning
- One button self-cleaning
- Bigger double tank system: 700ml CWT+500ml DWT
- 6*3000mAh battery provides 30min long runtime
- 5500Pa strong performance with 2 modes
- Smart voice assistant & light prompts
- 3-in-1 base design, storage + charging + cleaning
- User-friendly, cordless convenience

Wet & Dry Vacuum Cleaner

3-in-1 Vacuum, Mop & Wash

Allows you to vacuum, wet mop and wash floor in one go, suitable on multi-surfaces for your house deep clean that covers up to 200m².

One Button Quick Self-cleaning

At the touch of a button, the one-click self-cleaning cycle removes dirt, hair, and debris from the brush roller within 1 min for mess-free maintenance.

High-capacity Dual-tank Design

The dual-tank design keeps clean and dirty water separate for non-stop fresh water cleaning. A 700ml clean water tank provides ample water to clean floors longer and refill less.

Smart, Powerful and User-friendly

Voice prompts better update user cleaning status. It cleans longer with powerful suction power. The 3-in-1 dock supports storing, charging and self-cleaning, keeping everything organized and tidy.

Deeper Clean, Tap & Go

W90 Pro

Key Features:

- Clean & Dirty Water Separate
- 3-in-1 Vacuum, Mop & Wash
- Real-time Display of Status
- One-click Automatic Cleaning
- Lightweight & Effort-saving
- Washable Floor Head & Filter
- 7,000 Pa Powerful Suction
- 600ml Clean / 560ml Dirty Water Tank

Clear LED Display at a Glance

Stay updated in real time with a clear LED display that shows battery level, water spray status, fault alerts, and charging status — all in one place.

One Tap, All-in-One

Experience the powerful 3-in-1 system that vacuums, mops, and washes in a single pass — now lighter and easier to maneuver than ever.

7,000 Pa Powerful Cleaning, Wet & Dry

With 7,000 Pa cyclone suction and a high-speed cleaning system, it effortlessly tackles tough wet&dry stains on all hard floors, removes 99.99% of bacteria, and quickly restores a spotless shine.

Clean with Fresh Water, Always.

Dual-tank design keeps clean and dirty water separate, so you always mop with fresh water — no reuse, no contamination.

Commercial Robotic Vacuum Cleaner

ILIFE X1000 Commercial & Home AI robot vacuum cleaner

Working Like a Real Robot

ILIFE X1000 is the world's first commercial & home dual-purpose AI robot vacuum with 20000Pa hurricane-force suction power. Featured with smart DToF lidar navigation system, Powerful cleaning system and user-friendly operation system, It is born to solve the floor cleaning problems in both small&medium business and the big house scenarios.

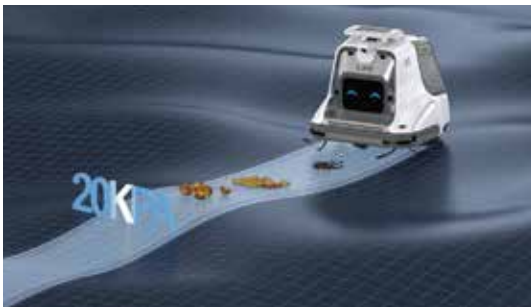

Product Advantages

Smart Navigation System

Featured with the most advanced DToF LiDAR technology, 6-axis inertial sensor, and slam algorithm, X1000 can scan and create the 3D map quickly and precisely.

Powerful Cleaning system

Powered by a 300W high-performance brushless motor, the X1000 delivers up to 20,000Pa hurricane-force suction—300% more than others. Its 3L large dustbin holds more debris, reducing the need for frequent emptying.

Long-Lasting Runtime

The superb energy is supported by 2*112.1Wh lithium battery packs. Each battery can work separately, releasing long-lasting power to work up to 200mins for only one charge.

User-friendly Operation System

X1000 supports to customize cleaning via APP. So when you are on the way home or work, just take one click, X1000 will begin to work in advance. It also equipped with one 5-inch touch screen, so you can operate X1000 easily via this screen easily.

Modular design, easy to maintain

X1000 adopts modular design, many of the product components including dust box, filter battery, roller brush etc. can be replaced easily. It also Supports customized portable charging stand, which can Charge multiple battery packs independently.

Key Features

- Lidar Navigation and AI Recognition
- 20000Pa Big Suction
- Climb Up to 25mm
- 3L Big Dustbin
- Auto-recharge
- Cover Up to 1000m²
- Support App and LED Touch Operation
