

# ISSCC 2026 Exhibitions

San Francisco Marriott Marquis Hotel, San Francisco, CA

Monday, February 16 2026 3:00 PM – 8:00 PM

Tuesday, February 17, 2026 9:30 AM – 1:30 PM; 3:00 PM - 8:00 PM

## Information for Exhibitors

ISSCC is the foremost global forum for presenting advancements in the design of solid-state circuits and systems. It is attended each year by about 3,000 designers, researchers and executives from all over the world. ISSCC attracts a diverse audience including system designers and architects, technologists, professors, students, product developers, engineering managers, C-level executives and more to San Francisco – the center of electronic design in the United States.

ISSCC Exhibitions provide companies and research institutions a space to showcase and market advanced products, electronic design automation tools, laboratory equipment, applications based on solid-state circuits, and cutting-edge circuit research to the ISSCC attendees. The primary aim of the Exhibition is marketing the presenting corporations/institutions, their products, and their applications. Detailed disclosure of technical advances is traditionally done at ISSCC via technical papers, technical presentations, and practical demos of the papers provided in the ISSCC Demo Sessions.

Corporations are welcome to provide information about their activities to the participants, and to present themselves to students who could become interested in working for them. However, activities aiming at hiring ISSCC attendees who are not students are not allowed as part of the Exhibit.

### Fees & Amenities:

The cost of each 10'x 10' booth is

1. New Exhibitors: \$3850 per 10'x10' Space
2. Repeat Exhibitors: \$3450 per 10'x10' Space

Each Exhibitor can request one or more 10'x10' booths. Each booth includes a 6' draped table, 2 chairs, a wastebasket, and an aisle sign. 500W power outlets with extension cords will be made available. This fee includes 6 free entry passes for booth staff, valid only for access to the Exhibition. The location of the specific booths assigned within Golden Gate will be determined by the ISSCC organization. ISSCC organizers are investigating the addition of a lead retrieval service for the 2026 conference, with potential details later in the year. Wireless internet is provided in the ballroom at no charge. Wired internet can be provided at extra cost, according to hotel rates.

### Schedule Preview:

The booths will be ready for the Exhibitors to move-in and setup in the morning Monday February 16<sup>th</sup>, 2026. Exhibitors move-out will be on 2/17 from after 8PM. If you require a special accommodation, please let us know when making a request for exhibit space.
